**Dow AgroSciences**

**Confront**

**Specialty Herbicide**

For the control of annual and perennial broadleaf weeds in established turf

Active Ingredients:
- triclopyr: 3.2-trichloro-2-pyridyloxyacetic acid, triethyamine salt — 33.0%
- clopyralid: 3,6-dichloro-2-pyridinecarboxylic acid, triethyamine salt — 12.1%

Inert Ingredients: — 54.9%

Total — 100.0%

**Acid Equivalent:**
- triclopyr — 23.7% — 2.25 lb/gal
- clopyralid — 7.9% — 0.75 lb/gal

EPA Reg. No. 62719-92

**DANGER/PELIGRO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**KEEP OUT OF REACH OF CHILDREN**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

**FIRST AID**

If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

If on skin: Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

Note to Applicator: In the dilute mix, no skin reaction is expected when used as directed.

**General Use Precautions**

Apply this product only as specified on this label.

Do not apply to exposed roots of shallow rooted trees and shrubs.

Do not allow spraying of Confront to contact exposed suckers and/or roots of trees and shrubs or injury may occur.

Do not apply Confront directly to, or otherwise permit it to come into direct contact with cotton, grapes, tobacco, vegetable crops, flowers, fruit or ornamental trees, or other non-target desirable broadleaf plants and do not permit spray mists to drift onto them.

Do not reseed for three weeks after application.

Do not use Confront on golf course putting greens or tees.

Do not use grass clippings from turf treated with Confront for mulch.

Do not use compost containing grass clippings from turf treated with Confront in the growing season of application.

Do not apply on ditches used to transport irrigation water.

Do not apply where runoff or irrigation water may flow onto susceptible crops as injury may result.

**Treatment of Turf Species Not Listed on the Confront Label**

Users who wish to use Confront on a turf species not recommended on this label may determine the suitability for such uses by treating a small area at a recommended rate. Prior to treatment of larger areas, the treated area should be observed for any sign of herbicidal injury during 30 days of normal growing conditions to determine if the treatment is safe to the target species. The user assumes the responsibility for any plant damage or other liability resulting from use of Confront on species not recommended on this label.

**Weeds Controlled and Use Rate Recommendations**

Use the higher rates when hard to control species are prevalent, when applications are made in late summer on mature weeds, and during periods of drought stress.

**Storage:** Store above 28°F or agitate before use.

**Pesticide Disposal:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

**Container Disposal (Plastic):** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastic containers, after triple rinsing, may be incinerated if allowed by state and local authorities. If burned, stay out of smoke.

**Container Disposal (Metal):** Do not reuse container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**General:** Consult Federal, state, or local disposal authorities for approved alternative procedures.

**GENERAL INFORMATION**

Confront specialty herbicide is a broad-spectrum non-phytoxic weed killer for control of broadleaf weeds in established cool season and warm season turfgrass.

**Weeds**

- broadleaf plantain
- burdock
- coffeeweed
- common dandelion
- common cocklebur
- common ragweed
- lambquarters
- narrowleaf plantain
- shepherd’s purse
- Virginia pepperweed

**Suggested Use Rate**

</tr>
<tr>
<td>zoysiagrass</td>
</tr>
<tr>
<td>fescue, tall (growing in warm season areas)</td>
</tr>
</tbody>
</table>

††Do not treat warm season turfgrass with Confront when the mowing height is less than ½ inch.

Avoid Injurious Spray Drift
Apply Confront in a manner to avoid contacting nearby susceptible crops or other desirable plants. Applications should be made only when hazards from spray drift are at a minimum. Very small quantities of spray, which may not be visible, may seriously injure susceptible plants including ornamental trees and shrubs. Do not spray when the wind will carry spray mist toward susceptible crops or ornamental plants.

With ground broadcast equipment, drift can be reduced by Keeping the spray boom as low as possible, by applying no less than 20 gallons of spray per acre (except under “Low Volume Applications”); by Keeping the operating spray pressures at the lower end of the manufacturer’s recommended pressures for the specific nozzle type used, and by spraying when the wind velocity is low. In hand-gun applications, select the minimum spray pressure that will provide adequate plant coverage (without forming a mist). Do not apply with a mist blower.

Standard Broadcast Applications
Apply 1 to 2 pints of Confront in enough water to deliver 20 to 200 gallons of total spray mix per acre (0.5 to 5 gallons spray per 1,000 square feet). Higher application volumes may be used when Confront is tank mixed with fertilizers.

Low Volume Applications
Apply 1 to 2 pints of Confront in enough water to deliver from 5 to 20 gallons of total spray mixture per acre (% to % gallon spray per 1,000 square feet). Use lower pressures and application equipment capable of delivering a uniform droplet size that can wet the weed leaf surface. To improve spray coverage, the addition of a nonionic surfactant at a rate of % to % pint per acre is suggested. Use the higher rates of surfactant for lower rates of product and lower spray volumes. The use of ULV applications is not recommended.

Spot Treatment of Ornamental Turf Using Portable Sprayers
Mix 0.5 fluid ounce of Confront in enough water to make 1 gallon of spray and apply at any time broadleaf weeds are susceptible by wetting foliage of undesirable plants to point of runoff. This is enough spray to treat approximately 1000 sq ft of turf.

WARRANTY DISCLAIMER
Dow AgroSciences warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. Dow AgroSciences MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. INHERENT RISKS OF USE
It is impossible to eliminate all risks associated with use of this product. Crop injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperatures, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Dow AgroSciences or the seller. All such risks shall be assumed by buyer.

LIMITATION OF REMEDIES
The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Dow AgroSciences’ election, one of the following:

(1) Refund of purchase price paid by buyer or user for product bought, or
(2) Replacement of amount of product used

Dow AgroSciences shall not be liable for losses or damages resulting from handling or use of this product unless Dow AgroSciences is promptly notified of such loss or damage in writing. In no case shall Dow AgroSciences be liable for consequential or incidental damages or losses.

The terms of the Warranty Disclaimer above and this Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Dow AgroSciences or the seller is authorized to vary or exceed the terms of the Warranty Disclaimer or this Limitation of Remedies in any manner.
