

**Honua Ola Environmental Community Service for GEOG 102 and GEOG 122**

Aloha everyone in our class!

As you know, there is a small, but important, component of your course grade that includes a Honua Ola Environmental Community Service commitment. Here is an excerpt from the course syllabus:

“Please participate in one community service project event, aimed at restoring or improving **environmental well-being** within a given community. I will arrange several different opportunities for my Geography students to participate in. You may instead opt to find your own community service project, and you may work with other students or individually...”

I would like for each group or individual to submit visual documentation of the activity. **Photos** are easiest, and **completely acceptable**.

I will set aside some time during the last week of class, for you to share your experiences.

Many of you have already completed this requirement and have shared with me your experiences, through photographs you have taken. I have begun to post those on our class website. **Mahalo** for your contribution.

Please answer the following questions, and return this sheet to me by Wednesday, **November 26<sup>th</sup>**.

**Your name** \_\_\_\_\_

**Course** (circle): **GEOG102\_04** (UHH in-person) or **GEOG102\_05** (UHH online) or **GEOG122** (HawCC)

1. Have you **completed** your Environmental Community Service commitment for our course?

Yes (answer questions **2 and 3 only**)     No (answer questions **4 and 5 only**)

2. What was the **activity** and **when** did you complete it?

3. Have you shared with me your **visual documentation** of the activity?

Yes     No (if no, please indicate when you plan to do so) \_\_\_\_\_

4. Please indicate when you **expect to complete** this environmental community service activity.

Mon	Tues	Wed	Thurs	Fri	Sat	Sun
				Nov 21	Nov 22	Nov 23
Nov 24	Nov 25	Nov 26	Nov 27	Nov 28	Nov 29	Nov 30
Dec 1	Dec 2	Dec 3	Dec 4	Dec 5	Dec 6	Dec 7

5. Please describe the **project** you plan to complete.
