University of Rhode Island	46
University of Texas at Austin	4

The Cooperative Pharmacy Programs are structured so that students are able to complete the two years of pre-pharmacy requirements at either UT El Paso or UT-Pan American and then come to Austin to complete their first two years of pharmacy coursework. Students return to their home region to complete their third and fourth years of the pharmacy curriculum.

The Pharmacy Scholars Program is an early admission program designed to encourage high school students to consider pharmacy as a career. The program offers conditional admission to the College of Pharmacy to a select number of highly-qualified high school seniors. Under the contractual agreement, students are expected to complete pre-pharmacy courses and maintain a grade point average equal to or greater than 3.2 on a 4.0-point scale. A minimum of a combined verbal and math SAT score of 1000 or a minimum composite ACT score of 21 is desired. Students may also apply to the Pharmacy Scholars Program during their first or second year of pre-pharmacy studies. Pharmacy Scholars become a part of the pharmacy community through participation in pharmacy-related seminars, special projects, summer research programs and community service projects under faculty direction and supervision.

[University of the Pacific](#) offers a 5-year, or "2+3," Pharm.D. program to qualified first-time freshmen. They also offer a 6-year, or "3+3," Pharm.D. program to freshmen who do not meet the requirements for the "2+3" program.

51 (Long, Stockton CA)

[University of Pittsburgh](#) offers a conditional admission to a limited number of high school seniors, and if the student proceeds to meet set criteria for the first two years of the pre-pharmacy program, he or she will advance directly into the professional program.
