

Anaerobic Biotechnology for Bioenergy Production: Principles and Applications

By

Samir Kumar Khanal, Ph.D., P.E.

Homework Problems and Solution Manual

If you are following my book for teaching, I have developed a set of problems for each chapter. Once the students master the contents, they should be able to answer/solve the problems. For any missing data, students are advised to consult my book. Solution manual is available for purchase.

**PPT files are also available for selected chapters
(Only for Course Instructors)**

Some Corrections

Chapter 2:

Page 31, Line 7, “(group 3)” should be corrected to “(group 5)”.

Page 31, Line 11, “(group 5)” should be corrected to (group 3)”.

Chapter 3:

Page 60, Example 3.1, Line 9, “55.6 x 3.064x⁻⁴” should be corrected to “55.6 x 3.064x10⁻⁴”.

Chapter 8:

Page 184, Example 8.1, “ a 1 million L/year” should be corrected to “a 1-million L/day”.
