2. My overall evaluation of this course is...
Great for ISA majors
Positive
Very challenging
this was probably the most difficult course I've ever taken. There was a lot of material to cover and the only things that were graded were the midterm exam and final exam which were both very difficult.
Very good course. Very challenging. Instructor is well knowledgeable and provided real world application to the course material from on the job experience, he is a subject matter expert in his field and not some academia dude.
Good
N/A
Overall, I really enjoyed applying the topics to real-life examples, such as from a DoD perspective. However, students only had two tries (midterm and final) to pass the course, which I feel had a detrimental effect on my mental health and made the course feel more like torture than an opportunity for learning.

3. If this course was taken to fulfill course requirements for your concentration/major, how did this course enhance your personal and/or professional development in your concentration/major?
It'll ready myself for the CISSP certification.
This course provided insight into the security management profession.
This course showed me the importance of structure and the lucrative opportunities in information security management.
This course helped teach me how difficult this field is and how difficult the CISSP exam is.
N/A
Made me prepared to take CISSP exam
N/A
This course enhanced my ability to articulate myself regarding topics in my concentration.

Perhaps more weight regarding the assignments									
All the resources were found on a specific website, but it would be easier if there was a resources tab on laulima with all the resources for the course.									
More time in a week. This course was packed full of material and there just wasn't enough time in a week to learn it all before the next class lecture.

Assignments that actually help us with the exams. Although the multiple-choice homework assignments may help us with the CISSP exam, they did not help me at all with the course exams because the course exams were in a short-answer format.

The midterm and final exams were very challenging, perhaps overwhelmingly so.
Add class resources to laulima would make it easier for students to find slides and past exams.
