Poster Session Guidelines

ISLANDS OF THE WORLD IX
Sustainable Islands – Sustainable Strategies

Conference of the International Small Islands Studies Association
July 28 – August 4, 2006
Maui Community College - Kahului, Maui, Hawai‘i

Posters are intended for papers to be presented in an informal setting. At least one of the authors must present to discuss the work. Handouts or sample materials relative to the poster are popular. Consider including a sign-up sheet for addresses of those who might want more information or reprints.

All materials should be mounted on a background of about 6’ wide x 4’ tall (1.5-2 m.) In the top center of the poster, place the title of the presentation in large letters (?? point), the institution where work was completed, and all the authors’ names. In the upper left include an abstract of the work. Text should be limited to four pages of double-spaced, 16-20 point text. Include graphics, such as tables, graphs, drawings, photographs, diagrams, maps, etc. On the right side of the poster, place the conclusion, acknowledgements, and references.

Mounting supplies are not provided by ISISA. Prepare the poster in advance. If at all possible, print out the entire poster electronically and laminate it. It is recommended to transport it in a mailing tube or a portfolio case. Posters will be mounted on walls with poster tape or push pins, depending on the surface. Electricity is not available.
