VEGETABLE CROPS UPDATE

Volume 9 September 1999 No. 2

May 1991 Vol. 1 No. 1
1.0. Resources
1.1. Vegetable Production Training Manual
1.2. American Journal of Alternative Agriculture
1.3. 1991 Organic Supplier Directory
2.0 Upcoming Events
3.0 Research News
3.1 Cultivar Releases: Tomato; Soybean; Day neutral Strawberries
3.2 Bed spacing for strawberries
3.3 Uniform plant stands to promote early growth, may provide an early competitive advantage to compete against weeds, and outgrow pest damage

June 1991 Vol. 1 No. 2
1.0 Research News
1.1 Effect of cultural practices on plant, pests and diseases
1.2 Crop rotation and monoculture affect the soil “receptivity” to take-all
1.3 Effect of crop rotation with sorghum to control cyst and root-knot nematodes in soybean
1.4 The use of Antitranspirants to increase yields in transplanted bell peppers
1.5 New asparagus breeding line
2.0 News Updates
2.1 Industry Associations in the mainland: Asparagus and Onions
2.2 Sweetpotato white flies in Florida tomatoes
2.3 Increase in air-shipment of specialty products
2.4 Herbs in the News

July 1991 Vol. 1 No. 3
1.0 Research and Industry News
1.1 Produce quality in Supermarket
1.2 Vesicular-Arbuscular Mycorrhiza (VAM) helps control Pythium in greenhouse cucumbers.
1.3 Drip Irrigation in California
1.4 Thrips control update from Florida
1.5 Watermelon Nutrition Tips
1.6 Hydroponics Production Tips
1.7 Hydroponics Production Tips
1.8 Florida Cultivar Trials; Spinach and Broccoli
2.0 Upcoming Events

September 1991 Vol. 1 No. 4
1.0 Research and Industry News
1.1 Organic Stores Target Upscale Markets.
1.2 Hydroponics in Illinois
1.3 Fresh Produce Promotion Campaigns in Mainland
1.4 Women in Agriculture
1.5 Smaller Packs demanded by Food Service Industry
1.6 New Alternative Pest Controls
1.7 No-till results in reduction of Nitrogen leaching
2.0 Upcoming Events

November 1991 Vol. 1 No. 5
1.0 Research and Industry News
1.1 Terminator II: Poinsetta Whitefly Hits California, Texas
1.2 Whitefly Chemical Control in greenhouse Tomatoes
1.3 PetoSeed to Evaluate TSWV Resistant Lines
1.4 Convention Fever Trivia
1.5 Manure Treatment Efficiency Affected by Soil Type
1.6 Pesticide Registration - Cal-EPA

6.15 Top Veggies, farm gate value ($ millions) of Production

7.0 Perimeter screen reduces Fruit Fly damage in Zucchini Squash

8.0 Fruit Fly Control with “Samurai Tent”
8.1 Samurai Tent - Row Cover Barrier
8.2 No Samurai Tent Barrier

9.0 Miscellaneous Corner
9.1 Vegetarian Shoppers
9.2 UH Seed Program: Seed for Sale
9.3 US Industry Factors
1.0 Organic Farming; An Overview of the Organic Farming Industry in Hawaii

1.1 Contents
1.2 Introduction
1.3 What is Organic Farming?
1.4 What is Organic Certification?
1.5 Principles of Organic Farming
1.6 The Certification process

2.0 Organic Standards for Certification
2.1 Prohibited Substances
2.2 Record Keeping
2.3 Management Plan
2.4 The Organic Market
2.5 The Japan Market
2.6 Barriers to Organic Farming According to a Grower Survey in the Continental U.S. Survey of Organic Farmers in the USA, 1993
2.7 Organic Market Factoids

3.0 Organic Farming Research in Hawaii

4.0 Resources
4.1 Certification Guidelines
4.2 Resources and Educational Materials
4.3 Videos Available
4.4 Selected Web Sites
4.5 Retail Markets in Hawaii
4.5.1 Oahu
4.5.2 Hawaii
4.5.3 Maui
4.5.4 Kauai

5.0 Research belief: Effect of Seaweed Organic Farming and Sustainable Agriculture
5.1 Methods
5.2 Results and Discussion
5.3 Conclusion
5.4 Literature Cited
5.5 Product description provided by Distributor

6.0 Additional Resources
6.1 Farmer References for Organic and Sustainable Agriculture
6.2 Weed Control
6.3 Pests, Insects, and Diseases
6.4 Soil Fertility Management
6.5 Managing Cover Crops Profitably
6.6 General References - Organic Farming and Sustainable Agriculture
6.7 Acknowledgments and Sources of Information

April 1999, Vol. 9, No. 1
