LCC & HAWAII FOOD BANK
ANNUAL FOOD DRIVE
MARCH 31-APRIL 18

The Hawaii Food Bank’s mission is simple—to provide food so that no one in Hawaii goes hungry. Each year, the Food Bank provides food for over 131,000 people; nearly 47,000 of that number are children or the elderly.

FOOD
Though anything is appreciated, the Top Five Most Wanted foods are:

- Canned Meats & Fish
- Canned Meals (Spaghetti, Chili, Corned Beef Hash, etc.)
- Canned Soups
- Canned Vegetables
- Canned Fruits

MONEY
Monetary donations are simple, easy, and tax deductible. The Food Bank will leverage your donation with grocery distributors to further stretch your dollar.

All food and money donations can be given to LCCW staff.

Student Temporary Employment Program at Hickam Airforce Base

College students who are enrolled at least half-time and citizens of the U.S. or American Samoa are eligible for these great jobs, and most of them provide an additional 25% Cost of Living Allowance (COLA). Hickam’s positions should be particularly interesting for undergrads considering careers in Business Technology, CTE: Trades, Engineering and Elementary Education/Child Care. Positions are full-time from June-August 2008.

Applications must be submitted by April 18, 2008.
See an LCCW staff member or email emic@hawaii.edu for an application packet with job descriptions.
Featured Student: Debora Silva

Debora is a resident of Wai'anae who started her LCC academic journey at LCC-Wai'anae. She is currently the Chapter President of the Alpha Lambda Gamma chapter of the Phi Theta Kappa International Honor Society at LCC.

Here, Debora describes the benefits that she’s experienced with her membership in Phi Theta Kappa.

Early 2007 I redeveloped the chapter web site and with that I had to do tons of research. In doing that research, I discovered more about Phi Theta Kappa. It is a prestigious, academic, international organization that changes lives for the better, in more ways that anyone could imagine. Phi Theta Kappa is about leadership, scholarship, service and fellowship and the promotion of academics.

What I enjoy about Phi Theta Kappa is that it provides for professions as well as personal growth, fellowship, leadership and many opportunities for scholarships. HPU and Chaminade, as well as other universities around the world, currently offer various transfer scholarships that are not available to non members.

Phi Theta Kappa International headquarters seeks new partnerships every day, so membership opportunities are always increasing. Members make lifelong friends due to the many shared opportunities of fellowship. Leadership skills are also learned through employing many of the events, programs and services, and also become a part of one of the largest service organizations in the world.

Currently, there is a Phi Theta Kappa program called ‘Operation Green’ that is about educating, raising awareness, beautifying and organizing community clean ups. Of all the Phi Theta Kappa Programs, Operation Green has had the biggest impact on me because even with all the media attention about our environment being in peril, I never really grasped the impact of what’s really happening with our world. But with the generous education from Phi Theta Kappa, I have finally realized that we are so behind in acting on saving our world, and Phi Theta Kappa provides the tools to do so.

As members, we also attend conferences and conventions where we learn about ourselves and others. There are fellowships of academics, learning, growing, practicing and also employing what we bring in as individuals or as groups, whether large or small.

If student doesn’t have a GPA of 3.5, Phi Theta Kappa still accepts applications for Provisional Membership, which means that the student will try to increase their GPA to 3.5+ by the semester’s end and then apply as a full standard member. Provisional members are a part of the chapter and not yet Phi Theta Kappa members, but the benefits are still enough to motivate the Provisional member to strive to better themselves academically as well as personally. I find provisional members to be our most motivated.

More information and applications can be found on our web site — [http://emedia.leeward.hawaii.edu/philhetakappa/](http://emedia.leeward.hawaii.edu/philhetakappa/).

We are currently accepting applications. The deadline is April 4, 08. More info can be found on the applications.

My academic career will never really be complete because my education in computer science and digital media is always evolving, so if I stop learning then my career is pretty much over soon after. I already do and will continue to develop web sites and anything related. I hope to graduate either in the fall of 2008 or the spring of 2009.
